NEWS BULLETIN

From the office of the Principal

Dear Reader,

In recent days I find active involvement of staff, both teaching and non-teaching, in achieving more milestones. The unstinted support extended by the Management also continues to boost the morale of the staff. As a measure to improve the admission of quality students, co-educational pattern is introduced from this academic year (2007-08). The massive advertisement made through News Papers is yet another factor to bring large number of students seeking admission in our college. The academic and extra curricular activities that took place last year in the college have made many eyes turn towards our college. In spite of all these efforts we have to strive hard for greater glory.

From the Secretary's desk

Dear Reader,

The academic year 2006-2007 had been highly successful. Especially during the even Semester, we have had lot of activities. Number of Seminars, Workshops and Meetings were conducted. The Student Community was highly benefitted. This is a clear indication that Teachers are highly motivated and with their dedication and hard work, the College is poised for great eminence in the near future.

The Infra-structural facilities in the College are being attended to in a phased manner keeping in mind the immediate requirements.

ACTIVITIES OF
ACADEMIC ASSOCIATIONS
BOTANY ASSOCIATION

Dr.R.MOHANRAJ. Lecturer, Dept. of Environmental Management, Bharathidasan University, delivered a lecture on "IMPLICATION OF CLIMATIC CHANGES" at the Valedictory meeting of Botany Association held on 16th March 2007. He asserted that most of the global warming observed over the last 50 years is attributed to human activity and that the CO2 concentration has increased from 330ppm in 1970 to 380 ppm in 2004. Popular Lecture Series

Dr.A.Sivathanu Pillai, Chief Controller, Research and Development, DRDO. Govt. of India delivered a popular lecture on REVOLUTION IN SCIENCE AND TECHNOLOGY. According to Dr.Sivathanu Pillai, India being self reliant in space technology, had made rapid strides in the field of Ballistic Missile programme right from 1983 and now has moved on to the Cruise missile programme by successfully testing the super sonic cruise missile 'Brahmos' made in collaboration with Russia. The multi-role Bramos had already been inducted into the Navy and soon to be inducted into Army too. It has the capability to strike specific targets on land and sea with precision. Speed, precision and power are the hallmarks of the Brahmos making it the best in the world. He further added that with Biotechnology, Nano technology and Information technology merging together we are heading for another revolution which will change the life style of mankind.
